"On behalf of the Clear Creek Education Foundation Board of Directors, I am thrilled to welcome you to the CCEF family. We are so excited to have you joining us, and I truly appreciate your willingness to support our mission and the students and educators of Clear Creek ISD. CCEF has an exciting year ahead, filled with meaningful opportunities to connect with our community and make a real impact in our schools. From celebrating innovation in the classroom to supporting programs that strengthen student success, this is going to be a year of growth, energy, and purpose.

Whether you are new to CCEF or returning for another year, your involvement matters. The work we do is only possible because of dedicated people like you who believe in investing in education and helping create opportunities for every student. Please join me in supporting our teachers and students in 2026. I look forward to seeing you at upcoming events and working alongside you throughout the year. It's going to be a fantastic one!"

The mission of the Clear Creek Education Foundation is simple yet powerful: to invest in our students, educators, and the future of our community. Each year, I am inspired by the innovation, dedication, and heart across Clear Creek ISD—and by the shared belief that when we invest in education, we all benefit. This work is only possible because of the generosity of our donors, sponsors, and partners. Your support is essential. You allow us to expand opportunities, strengthen classrooms, and respond to the evolving needs of our students and educators. Simply put, you make our mission possible.

Now more than ever, the role of CCEF is critical. Together, we are meeting this moment with purpose, collaboration, and an unwavering belief in what is possible for every student we serve.

Leader in Me®

What is Leader in Me?

Based on the idea that every child can be a leader, the program is a whole-school transformation process that teaches 21st century leadership and life skills to students. The Leader In Me is aligned with many national and state academic standards and the process teaches students the skills needed for academic success in any setting.

What are the positive effects on children?

Participation in the program leads to tangible improvements in the academic, behavioral and social well-being of students. Early intervention has been proven to provide better odds for students to thrive and be successful in their future endeavors.

How long does the implementation process take?

Takes 1-3 years to become fully implemented

Once implemented, schools work towards earning the Lighthouse Certification

Certification is earned based on evidence of outstanding results in student outcomes

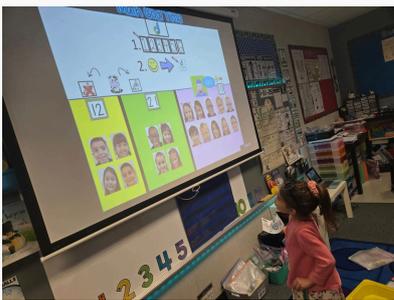

Certification typically occurs four to five years into implementation.

How is the program funded?

The Clear Creek Education Foundation (CCEF) partners with the District to help fund a portion of program costs as well as identify future partners to support the expansion of the program at additional schools.

The CCEF, as well as the local PTA organizations, sponsored the launch of the initiative at the first two schools, Falcon Pass Elementary and Armand Bayou Elementary schools.

Houston Methodist Clear Lake Hospital is the Visionary Partner underwriting the program at many schools.
